

Pearl interviews script for you & your director to do:

I have just been selected for a position with Mary Kay Cosmetics & as part of my training, my director asked me to select at least 6 sharp, intelligent women who I felt would give us their honest opinion of our company facts and background and to give me some exposure for my new business. I know that Mary Kay may not be something you want to do personally, but I would really value your opinion. In exchange for your time, we will have a product gift or discount for you & it will help me to complete my training. Which is better for you? Lunch, coffee or after work?

*When you complete 3 interviews you earn an awesome costume pearl bracelet, matching earrings with the next three and when one of those decides to come work with us, a necklace to complete the set!*
