

THE MUSIC OF FRAGRANCE

NOTES measure the performance of Fragrance. There are THREE levels to a Note:

Top Note

The **Top Note** is the very first impression one receives from fragrance, and it is the most identifiable. It is evaporative but it never altogether disappears. Instead, it softens. The **Top Note** is the brightest note in a fragrance.

Middle Note

The **Middle Note** is the ♥ of the fragrance. As a fragrance begins to blend with your body chemistry (after about 10 minutes of applying), the essence of a fragrance reaches its deepest intensity.

Bottom Note

The **Bottom Note** is the final stage. A fragrance usually lasts 1 to 3 hours after application. This is when the fragrance is most harmonious, a point when all the notes have molded gently together.

Angelfire For a refreshing mix of warm, soft florals laced with twists of fresh citrus, this captivating fragrance is for you.

Belara A perfectly balanced sheer, light fragrance. Top Notes like San Joaquin Fig, wild bilberry and opal lotus flower are perfectly accented by Southern Indian Tuberose, milky sandalwood and cotton musk.
